## Vocabulary List

## Math

| ADDITION |  |
| :--- | :--- |
| Plus | + |
| Equals | $=$ |
| Sum | $\mathrm{a}+\mathrm{b}=\mathrm{c}$ (outcome of an addition) |
| Solution | Outcome of equations |

| SUBTRACTION |  |  |
| :--- | :--- | :---: |
| Minus | - |  |
| Negative | -a |  |
| Difference | $\mathrm{a}-\mathrm{b}=\mathrm{c}$ (outcome of a subtraction) |  |

| MULTIPLICATION |  |  |
| :--- | :--- | :---: |
| Times | $\mathrm{a} \times \mathrm{b}$ ( a times b ) |  |
| Multiply by | $\mathrm{a} \times \mathrm{b}$ (a multiplied by b ) |  |
| Product | $\mathrm{a} \times \mathrm{b}=\mathrm{c}$ (outcome on a multiplication) |  |

| DIVISION |  |
| :--- | :--- |
|  |  |
| a over b (US) <br> a on b (UK) | $\mathrm{a} / \mathrm{b}$ |
| a divided by b | $\mathrm{a}: \mathrm{b}$ |
| Fraction | $\mathrm{a} / \mathrm{b}$ |
| Equals about | $\approx$ |
| Decimal number | $\mathrm{a}, \mathrm{bcdef}$ |
| Point / Comma | ., |

## Vocabulary List

| POWER |  |  |
| :--- | :--- | :---: |
| Squared | $a^{2}$ |  |
| Cubed | $a^{3}$ |  |
| To the nth power/ <br> To the power of n | $a^{n}$ |  |
| Brackets | $(1)$ |  |
| Curly brackets | $\}$ |  |
| Squared brackets | [] |  |

| INTEGRAL |  |
| :---: | :---: |
| Primitive / Antiderivative | F(x) |
| Function | $f(\mathrm{x})$ |
| Derivative | $\mathrm{f}^{\prime}(\mathrm{x})$ |
| Second derivative | $\mathrm{f}^{\prime \prime}(\mathrm{x})$ |
| Integral | $\int a$ |
| Limits of an integral | $\int_{b}^{c} a(\mathrm{~b}$ and c are the limits of the integral over a) |
| Upper limit | $\int_{b}^{c} a$ (c is the upper limit) |
| Lower limit | $\int_{b}^{c} a(\mathrm{~b}$ is the lower limit) |

| ROOTS |  |
| :--- | :--- |
| Root | $\sqrt{ }$ |
| Square root | $\sqrt{ }$ |
| Cube root | $\sqrt[3]{ }$ |
| Degree of root | $\sqrt[4]{ }$ |
| Extract the root | The operation of calculating the root |

## Vocabulary List

| TRIGONOMETRY |  |
| :---: | :---: |
| Trigonometric functions | All functions related to a right angled triangle (sin, cos, tan,...) |
| Sine | $\sin (\mathrm{a})($ sine of a$)$ |
| Cosine | $\cos (\mathrm{a})($ cosine of a) |
| Tangent | $\tan (\mathrm{a})$ (tangent of a) |
| Arc tangent | $\tan ^{-1}(a)$ (arc tangent of a) |
| Cotangent | $\cot (\mathrm{a})$ (cotangent of a) |
| Right angled triangle | Opposite side |
| Hypothenuse | Connects the two acute angles |
| Adjacent side | The edge on the angle you analyse |
| Opposite side | The edge opposite to the angle you analyse |
